**About The Conference:**

The conference is a holistic cross-cultural educational event featuring women in the fields of positive menstrual awareness. We anticipate approximately 200 girls, teens, women and moms & daughters. The conference creates a safe, dynamic space for girls and women to receive information about and explore their menstrual/menopause cycles through body, mind, heart and spirit.

The information and experiences will model the innate beauty, honor and body wisdom found in the menstrual cycle through the use of music, yoga, belly dancing, ritual, film, creative expression, storytelling, lunar cycles, and herbal knowledge.

**About The Red Web Foundation:**

The Red Web Foundation is a new, emerging 501(c)3 dedicated to supporting a positive societal view of girls' and women's bodies and menstrual cycles, first bleeding through last, creating physical, emotional and spiritual well being. We are dedicated to creating space in which women and girls can ask their questions and be received with respect and honor while remembering the connection of all women through time.

**Vendors:**

RWF wants you to be successful. To this end we have located the vendors in the key atrium area of the venue where refreshments and lunch will be served.
